5. Variance Analysis

3 line items are within auto-routing tolerance. 1118 line items require officer review due to variance, missing values, or confidence thresholds. Total variance is Rs. -959,739,210.53 Cr.

6. AI Observations

The DSS applies deterministic normalization and variance checks. It does not fabricate values; all numeric values in this draft come from extracted rows and persisted comparison records.

7. Officer Remarks

This draft has been prepared for review by Demo Officer. Officer comments and edits captured in the workbench are reflected in the comparison table where available.

8. Final Summary

This draft order is generated for internal review only. The Commission must confirm all REVIEW_REQUIRED items before issuing any final regulatory order.
