

KERALA STATE ELECTRICITY REGULATORY COMMISSION

Thiruvananthapuram, Kerala, India

TRUING-UP ORDER FOR FY 2024-25

Case ID: test-case-123 | Generated: 12.05.2026

DRAFT GENERATED FOR REVIEW

1. Introduction

The Commission has reviewed the ARR Approval Order and the Truing-Up Petition for FY 2024-25. This draft order compares approved baseline values against actual audited and claimed values extracted from the uploaded PDFs.

2. ARR Baseline Summary

The approved ARR baseline extracted from the ARR Approval Order totals Rs. 1,700.00 Cr. across the normalized comparison rows.

3. Petition Summary

The Petition extracted actual audited values totaling Rs. 1,805.00 Cr. and claimed values totaling Rs. 1,805.00 Cr.

4. Comparison Tables

The following table presents ARR approved, actual, claimed, variance, review routing, and source page traceability.

Line Item	ARR Approved	Actual	Claimed	Variance	Variance %	Status / Source
Power Purchase Cost	1,000.00	1,150.00	1,150.00	150.00	+15.0%	REVIEW_REQUIRED Officer: REVIEW
O&M Expenses	500.00	475.00	475.00	-25.00	-5.0%	AI_AUTO
Interest & Finance Charges	200.00	180.00	180.00	-20.00	-10.0%	AI_AUTO
TOTAL	1,700.00	1,805.00	1,805.00	105.00	+6.2%	-

5. Variance Analysis

2 line items are within auto-routing tolerance. 1 line items require officer review due to variance, missing values, or confidence thresholds. Total variance is Rs. 105.00 Cr.

6. AI Observations

The DSS applies deterministic normalization and variance checks. It does not fabricate values; all numeric values in this draft come from extracted rows and persisted comparison records.

7. Officer Remarks

This draft has been prepared for review by Test Officer. Officer comments and edits captured in the workbench are reflected in the comparison table where available.

8. Final Summary

This draft order is generated for internal review only. The Commission must confirm all REVIEW_REQUIRED items before issuing any final regulatory order.
